

Company

Photo Sorting, Inc. was originally founded in 1994 and went a long way from the initial small one-man shop for data analyzing software to the file processing tools specialist, that it is today. In 1997 we changed our business focus on photo processing software and development tools and introduced to the market:

Photo Sorter Pro

Photo Sorter Pro version 1.0 released in 1997, was the first tool that could process file storages with unlimited size, in one easy step. Combined with its straight-forward user interface and ease of use, the product became an immediate success. Today, Photo Sorter Pro is one of the best selling and most popular file sorting tools world-wide. The introduction of - .Net based - Photo Sorter Pro continues our mission to provide high quality file processing tools, and expands our presence in the file processing tools market. On Photo Sorter is based a group of popular photo sorting tools and it is available to retail and corporate customers as: Photo Sorter Pro - Full edition.
